Education

2024-2027 : PhD in spatial ecology, Habitrack project • La Rochelle University

2018-2020 : Master of science « Evolutionary and Functional Ecology»

Sorbonne University, Paris, France: 2018-2019

Université du Québec à Montréal, Canada : 2019-2020

2017-2018: Bachelor of life sciences • Angers university, France

Field mission

2026 – Northern Lapland: capture and tagging of Ruff. (2 weeks)

2024 and 2025 – Finland: Capture and tagging of shorebirds. (5 weeks)

2025 – Senegal: Capture and tagging of shorebirds. (1 month)

Work experience

2024 - Field ornithologist, Réunion Ornithological Society (SEOR)

2021/2023 – Ecologist, French Polar Institute, Terre Adélie District, TAAF – 15 months

Responsible for monitoring populations of birds and marine mammals. Ringing, fitting GLS/GPS tags, transponder tagging, blood sampling, and censuses. Database processing and management, GIS.

2021 - Volunteer research assistant, Lund University, Sweden, 3 months

Ornithologist for a field campaign, involving longitudinal monitoring of a population of black redstarts, installation of GLS devices, ringing, bioacoustics and database management.

2020 - Behavioural and Animal Ecology Research Group, UQÀM (Canada) – 6 months

Study of reproductive senescence in the striped chipmunk in relation to age at first reproduction. Modelling and statistical analyses using R, and preparation of a database derived from longitudinal tracking using CMR.

2019 - Paris Institute of Ecology and Environmental Sciences, Laboratory of Evolutionary Ecophysiology – 2 months

Master thesis: "The influence of temperature and habitat on the phenology and reproductive success of *Parus major*". Ringing, collection of blood samples for DNA analysis and blood smears, biometric measurements, statistical analyses.

2017 - Internship as an Environmental Officer, Loire-Atlantique Departmental Council – 2 months

Development of a project to enhance a Sensitive Natural Area within the Loire Valley Natura 2000 site.

2017 – Science communicator at the Nantes Natural History Museum
